Talent Show Submission Application Manual

This part is destined for the ADMIN :

The admin is the host of the competitions and he wanted an app that enables participants to register in a talent_show :

Welcome to the Talent Show Submission Application! This application is designed to facilitate the submission process for participants of the talent show. Participants can fill out a form with their details and upload their talent video, which will be stored securely in the system.

Getting Started:

1. System Requirements:

- Operating System: The application should be compatible with Windows, macOS, and Linux distributions.
- Hardware: A computer with sufficient resources to run the application smoothly, including CPU, RAM, and storage space.
- Software Dependencies: Ensure that Python and required libraries/frameworks (PyQt5, mysql-connector-python, pymongo) are installed on your system.

2. Installation:

- Ensure that you have the necessary dependencies installed, including Python, PyQt5, MySQL Connector, and pymongo.
- Clone or download the application source code from the repository.

3. Database Setup:

- Before running the application, make sure you have MySQL and MongoDB installed and running on your system.
- Create a MySQL database named `talent_show` with a table named `users` to store participant details (username, email, birthdate).
- Set up a MongoDB database named `talent_show` with a collection named `videos` to store participant videos.

Using the Application:

1. Participant Submission:

- Once the admin launches the application on its desktop , the Talent_show window appears , it's the one that contains the participants submission form .

- The participant will Fill out the form with his username, email, birthdate, and upload his talent video.
- The participants will be stored securely in the MySQL database, and the video will be stored in MongoDB.

2. Admin Dashboard:

- Administrator can access the admin dashboard to view submissions and manage participant data.
- Launch the login window and log in using your admin credentials.
- View a list of participant submissions, including their details and uploaded videos.
- The default credentials are usually provided to authorized administrators.
- Admins can review all submissions.

3. User Permissions:

- Administrators can manage user permissions directly from the application.
- Use MongoDB Compass to view and modify user roles and permissions.
- Ensure that users have the necessary permissions to access and manage participant data.

Troubleshooting:

- If you encounter any issues while using the application, refer to the documentation or contact the administrator for assistance.
- Check the application logs for error messages and consult the troubleshooting section for common issues and solutions.

Security Considerations:

- Protect participant data by implementing secure authentication and authorization mechanisms.
- Encrypt sensitive data such as user passwords and personal information to ensure confidentiality.
- Regularly update the application and database software to patch security vulnerabilities.

Feedback and Support:

- We welcome your feedback and suggestions for improving the application.
- If you encounter any technical issues or need assistance, please contact the application administrator for support.

Thank you for using the Talent Show Submission Application! We hope you enjoy participating in the talent show and showcasing your skills to the world.

This part is destined for participants :

here's a more detailed manual for the Talent Show application:

1. Main Window:

- Upon launching the application, you'll see the main window titled "TALENT SHOW".
- The main window provides information and acts as the entry point for participants and administrators.

2. Participant Submission:

- To participate in the talent show, participants need to fill out a submission form.
- The form includes the following fields:
 - Username: Enter your desired username or display name.
 - Email: Provide your email address for communication purposes.
 - Birthdate: Select your date of birth from the calendar widget.
 - Video Attachment: Click the "Browse" button to select a video file from your computer.
- After filling out the form, click the "Submit" button to submit your entry.
- Upon successful submission, a confirmation message will be displayed, and your entry will be stored in the system for review.
